Simply Excellence Dental Implant Year Course

2014

London

Thank you for the interest you have shown in the Simply Excellence implant year course for 2014

Our objective is to guide general practitioners with little or no experience in implant dentistry who would like to incorporate implant dentistry into their own practices safely and effectively.

As well as teaching the theory and practice of modern surgical and prosthetic implantology, it is also our aim to incorporate teaching, guidance and advice on all of the disciplines that define a successful implant practitioner. This includes diagnosis, laboratory communication, patient management, armamentarium and equipment selection, marketing, medicolegal issues and key implantology-centred practical clinical skills.

We believe it is the most hands-on implant course in the UK today with every delegate treating at least one patient of their own from start to finish and observing all the treatment stages of their colleague’s patients.

We will be supported by a variety of different companies and guest lecturers with whom we work closely.

Delegates will also be learning how to create the best environment within their own practices to ease their way into offering implant dentistry and mentoring is provided free of charge during the course and for one year by e-mail and telephone thereafter.

We are looking forward to seeing you on the course next year!

Kind regards.

Dr Koray Feran

Each course will consist of a day of lectures (Friday) at B.D.A. and a day of practicals and/or live surgery for all delegates at Dr Feran’s practice (Saturday). Dinner will be arranged on Friday evenings for the group in W1 London.

Delegates will derive maximum benefit from this course if they have at least one or two patients that may be amendable to straightforward implant treatment that they can bring for treatment during the course. When signing up, we recommend that delegates start actively looking for such patients and fully document them photographically and radiographically for presentation prior to starting. Whilst we would like to be able to provide patients for this course, the nature of our referral practices often makes it very difficult for us to do so.

Suitable patients should be willing to travel and know that they are being treated in a course environment and will be observed by other clinical professionals. Any fees charged are at the discretion of the delegate.

Suitable cases would involve missing single teeth or small spans amendable to treatment with 1 to 3 implants, with good clinical access and sufficient bone volume to not necessitate advanced grafting procedures prior to placement. It usually works best if delegates prepare three or four patients and the most suitable one for the course is selected once the course is commenced. If timing allows, more than one patient can be treated.
• **Introduction**

  o Now in its 10th year this course is designed to be a comprehensive beginner’s introduction for general practitioners of all levels who wish to incorporate implant dentistry into their practices, obtain contemporary knowledge and have practical hands on experience whilst doing so.

• **Educational outcome and qualifications (including CPD value if applicable)**

  o The delegate will be able to confidently assess, diagnose, and treat patients requiring implants within the scope of general restorative and surgical dentistry. Qualifies for CPD for approximately 70 hours of lectures and approximately 80 hours of practical hands on, observation, mentoring and discussion of live cases.

  o Under mentoring guidelines introduced by the GDC, it is now necessary for all dental school graduates to have suitable postgraduate training prior to undertaking implant dentistry. It will be necessary for the course presenters to assess each delegate during the course and for each delegate to keep a log book of their experiences and learning outcomes during the course. The presenters in their role as mentors will then advise the delegate as to whether in their opinion the delegate is competent to practice implant dentistry.

• **Brief summary of content**

  o The most hands-on implant course in the UK today covering every aspect of modern implant dentistry and related restorative and surgical topics

  o Treatment of own patient(s) from initial planning to final prosthetics on Saturdays.

  o Detailed tuition for duration of course and one-to-one mentoring by phone and e-mail for one year after final date of course.

  o Free attendance for delegates’ nurses (limited to one per delegate) on course lecture and practical days and to assist delegate during surgery with full nursing backup.

  o Free attendance for dental technicians (one per delegate) on technical days (7 and 8, 11 and 12, 13 and 14)
Detailed programme and specific topics covered (Details may vary with course progress – all Saturdays from March include patient surgical and/or prosthetic treatment)

- **Day 1-2**
  - Introduction, teaching objectives and course outline
  - Delegates self-introductions
  - The global and UK perspective on implants – organisations, conferences, learning resources, basic literature introduction
  - Delegate’s case presentations and treatment planning
  - Primary consultation case assessment

- **Day 3-4**
  - Secondary consultation, full case assessment, data collection and presentation
  - Diagnosis and treatment planning
  - Patient correspondence – templates and information warnings,
  - Fee setting, guarantees, terms and conditions
  - Practical record taking including photography and use of articulators
  - Introduction to implant surgical kit
  - Practical implant placement in dummy jaws

- **Day 5-6**
  - Gowning, draping, surgery setup (with nurses)
  - Instrument processing and sterilising (with nurses)
  - Surgical armamentarium and basic requirements
  - Surgical anatomy, basic surgery, flap design and suturing
  - Observation of surgery setup and live surgery

- **Day 7-8**
  - Laboratory analysis, waxing, planning, stents (with technicians)
  - Prosthesis driven treatment planning
  - Imaging, radiography and 3D diagnosis
Day 9-10
- Medical assessment, pharmacology, pain control and local anaesthesia, haemostasis, medical emergencies, nutrition.

Day 11-12
- Implant design
- Introduction to prosthetic kit
- Provisionalisation and tissue training
- Prosthetic components

Day 13-14
- Prosthetic design and concepts – methods, materials, maintenance for implant restoration

Day 15-16
- Impression taking and laboratory procedures (with technicians)
- Jaw relation records and occlusal control
- Jig design, fitting
- Maintenance and hygiene

Day 17-18
- Introduction to advanced surgery – soft tissue, particulate, block and sinus grafting
- Causes of and dealing with failures
- Observation of live sinus or block graft procedure
- Medicolegal aspects

Day 19-20
- Patient correspondence revisited
- Marketing
- Clinical audit
- Stock keeping
- TEST (MCQ and spotter)
SIMPLY EXCELLENCE IMPLANT COURSE
Application Form

- Location, address and brief description of venue
  
  Lecture and hands on days at:
  
  o BDA, 64 Wimpole Street, London
  o The London Centre for Implant and Aesthetic Dentistry, 28 Wimpole Street, London W1G 8GW (www.lciad.co.uk) or

  Dedicated state of the art implant practice with AV links to observation room, video and live audio feedback for questions and discussion.

- Delegate fees and arrangements for extras
  
  o Fees include – all teaching, mentoring, buffet lunches, tea and coffee, drapes and disposables, nursing assistance, evening meals for delegates (and nurses limited to one per delegate), materials for practical hands on sessions, detailed course literature and handouts, one year one-to-one mentoring by phone or e-mail.
  
  o All implant components can be ordered from Dentsply Friadent UK who will have special course delegate deals for implant and kit combinations.

- Payment
  
  o £4,500 advance payment to secure place and £4,500 before 1st June 2014.
  
  o 10% Discount if full payment is received in advance (£8,100).
  
  o No refund is possible after 1st November 2013*
  
  o Payments to “LCIAD Postgraduate” by cheque or direct transfer to NatWest Account: 20665210 Sort: 56-00-03 with name as reference.
  
  o 80% of each non-attended day is payable in the event the delegate cancels or does not attend.

  *Unless course is postponed or cancelled in which case monies paid will be returned as soon as possible and in all cases within 2 working weeks of any cancellation notice. No interest or compensation will be paid in addition to original funds. The course organisers cannot accept responsibility for any costs incurred outside those submitted as fees for the course, including but not limited to hotel reservations, travel tickets, days lost from work or equipment purchased for the purpose of the course.
